Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel Bedell on 6/6/2005.

The application has been amended as follows:

On claim 22, at the end of the claim, add "wherein the user is capable of switching between the topology display mode and the normal display mode".

On claim 29, at the end of the claim, add "wherein the user is capable of switching between the topology display mode and the normal display mode".

2. The following is an examiner's statement of reasons for allowance:

The prior art Duncan does not explicitly disclose a topology display mode and the ability to switch to it. The prior art Garnett et al. does not explicitly disclose switching between the topology display mode and normal display mode where each mode has specified limitations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
